

19th European White Dwarf Workshop

40 years of European White Dwarf Workshops (1974-2014)

August 11-15, 2014

Montréal, Canada

Topics:

WD structure and evolution

Progenitors and central stars of planetary nebulae

Binaries: WD's in CV's, double degenerates

WD/brown dwarf systems

WD's dust disks and planetary systems

Atmospheres, chemical composition, magnetic fields

Pulsating WD's

WD's in stellar clusters and in the halo

WD's as SN Ia progenitors
